

Customer information

The health and wellbeing of everyone who travels with Lynx and our staff is always our priority, but we are aware some customers may have concerns during the Coronavirus outbreak.

What we are doing:

- Sharing advice and information about how to stay healthy internally on our buses where we can.
- We always try to keep our buses very clean - but we are paying extra attention to grab poles and flat surfaces.
- At the moment we are running a full service applicable to the day. This may need to change in due course following Government announcements, school closures and staff availability (which is currently good). From here on we will announce any alterations and amendments on Twitter and Facebook – so keep an eye on them.

What you can do:

To reduce the transmission of Coronavirus, the government has advised people to avoid non-essential use of public transport when possible. If you do use the bus (or while at bus stations etc) please follow the latest expert advice:

- Cover your cough or sneeze with a tissue, then throw the tissue in the bin.
- Wash your hands often with soap and water for at least 20 seconds. If soap and water are not available, use an alcohol-based hand sanitiser.
- Avoid travelling if you feel unwell and have symptoms of Coronavirus – a new, continuous cough or a high temperature.

Thank you for your co-operation and understanding.
